The Library Services & Content Management (LSCM) Business unit of GPO established teams of volunteers from the depository library community to draft chapters of the Federal Depository Library (FDL) Handbook. The volunteers included representatives from the Depository Library Council, regional libraries, selective libraries, and LSCM.

The volunteers were charged with:

- consolidating the Instructions and Manual into one document;
- updating and refreshing content;
- adding more information on the electronic environment;
- documenting good practices and lessons learned; and
- aligning the Handbook with GPO's Strategic Vision (December 2004)

LSCM wishes to acknowledge the contributions of the following individuals for their hard work on the various chapters.
